THE PROJECT

Smart Travel Planner helps travellers discover India's top destinations, estimate budgets, check live weather and book instantly. A separate admin portal lets the team publish packages, approve trips and notify customers by email.

KEY FEATURES

- Search by destination, season and budget
- 5-step plan: stays, transport, map, budget
- Live weather and smart budget estimation
- Instant UPI booking with a trip cart
- Admin: add packages and approve trips
- Push packages to carts, email receipts
